Program Type: Residential, IOP

The Center of Recovery (CORE) opened its doors in 1999 with the vision to bring a place of help and hope to suffering gamblers. We are a residential facility offering treatment to those afflicted with gambling problems from within the state of Louisiana and around the world. Our facility provides a home/family-like environment, accommodating up to 21 adults, with one handicap accessible bedroom. Upon entering our facility, people comment on the comfort and beauty of the facility and grounds. We believe everyone deserves the opportunity to become healthy and successful in their life and to do this in the most comfortable surroundings possible. Being a client at CORE allows people to explore new life choices, to reside in an environment of recovery and to have encouragement from others to change. Are you ready to join us on the road to your recovery?

If you know you're ready for help call 1-877-587-5224 and speak with an Intake Specialist.
