

Self-Exclusion Programs - Internet Controls & Web Blocking Software - GamBlock®

****Resource For the Gambler and Loved Ones**

• Self-Exclusion Programs - Internet Controls & Web Blocking Software

Self-Exclusion Internet Controls & Web Blocking Software such as **BetBlocker**, **Gamban**, **Gamblock**, and **Gambling Block** can also be a powerful tool for those that gamble on the Internet and would like to block the ability to access gambling sites, track and control Internet usage, or restrict access at specific times. Like self-exclusion, web-based exclusion programs allow users to “ban” themselves from being able to gamble online. There are free options as well as paid options, and this resource allows users to continue to utilize their computer for work and leisure but attempts to reduce the temptation to gamble as a result of pop up gambling site advertisements that would otherwise appear without the program. Many offer valuable tools such as the ability to track internet usage and even device location. A great feature of some web blocking software is that once installed, if the user tries to remove the program from their device, a prompt appears showing a map of available problem gambling resources in their area (such as the 888-ADMIT-IT HelpLine). There are also child protection websites such as, **Net Nanny**, **Cybersitter**, **Norton Family**, **Netsweeper**, **OpenDNS**, and **Qustodio** available, to help prevent underage access to online gambling. **Freedom** is an app and website blocker designed to improve focus and productivity by temporarily blocking distracting websites and apps (including gambling websites and apps) across multiple devices. Additionally, family features and apps offered by wireless service providers such as **Verizon Family Plus**, the **AT&T Secure Family® App**, and **T-Mobile's FamilyMode® App**, offer the ability for their customers to block gambling apps and websites in addition to other sensitive content.

Some of the FCCG's Online Gambling Self-Exclusion Internet Controls and Webblocking Software Program Resource Referrals include the following:

➤ **GamBlock®**

GamBlock® is funded by customers. It blocks gambling absolutely. GamBlock® cannot be circumvented by using a VPN like UltraSurf on Windows. Tor can be used to surf the web and GamBlock® will prevent casino access while using Tor. On Android, GamBlock® will block online gambling websites as well. It will block betting sites that are yet to be published as GamBlock® uses heuristics to ban gambling sites rather than the simple lists imitators use that are never up to date. Our algorithms also prevent poker apps and the like from installing at all, rather than just filtering connections. Having these apps on devices still make people think of gambling. With our software they are never seen. GamBlock® is the way to block casino apps and you can also choose to irreversibly block extra apps that are a risk to you as we customise our gambling blocking software according to your personal preferences. Whether you want to be out of harm's way on Android, Windows or Apple, we have the solution to block online gambling for you. Our stop gambling app for Apple devices survives a factory reset, so you know your loved ones cannot lose money. Our Samsung and non-Samsung android apps block factory reset and our Windows gambling blocking app blocks factory reset, whether by Reset this PC, System Restore or any other method. In short, removal cannot happen. If you would like to block all things that put you at risk, whether it be sites, apps or any activity, GamBlock® has got you covered. We are only interested in helping vulnerable people with no hidden agenda.

What does **GamBlock®** do?

- GamBlock® blocks access to online gambling.
- GamBlock® helps problem gamblers avoid the dangers of unrestricted gambling.
- GamBlock® uses sophisticated analyses that block new gambling sites and software, unlike other programs that require constant updating of website lists, thus eliminating a potentially vulnerable time for users.

- Discounts apply for protection on multiple devices.
- GamBlock® is also available as a single license or multiple licenses for personal users.
- GamBlock® is under continuous development. Irremovability, security and diagnostic features are constantly updated.
- GamBlock® gives businesses, Government Departments, Libraries and other institutions the assurance that online gambling cannot be conducted from their facilities by their staff or visitors.

Now compatible with Android, Windows, and Apple devices.

Pricing

GamBlock® pricing and subscription periods vary by device type. For more information and up-to-date prices, visit: <https://www.gamblock.com/download.html>
