

• Self-Exclusion Programs - Internet Controls & Web Blocking Software

Self-Exclusion Internet Controls & Web Blocking Software such as **BetBlocker**, **Gamban**, **Gamblock**, and **Gambling Block** can also be a powerful tool for those that gamble on the Internet and would like to block the ability to access gambling sites, track and control Internet usage, or restrict access at specific times. Like self-exclusion, web-based exclusion programs allow users to “ban” themselves from being able to gamble online. There are free options as well as paid options, and this resource allows users to continue to utilize their computer for work and leisure but attempts to reduce the temptation to gamble as a result of pop up gambling site advertisements that would otherwise appear without the program. Many offer valuable tools such as the ability to track internet usage and even device location. A great feature of some web blocking software is that once installed, if the user tries to remove the program from their device, a prompt appears showing a map of available problem gambling resources in their area (such as the 888-ADMIT-IT HelpLine). There are also child protection websites such as, **Net Nanny**, **Cybersitter**, **Norton Family**, **Netsweeper**, **OpenDNS**, and **Qustodio** available, to help prevent underage access to online gambling. **Freedom** is an app and website blocker designed to improve focus and productivity by temporarily blocking distracting websites and apps (including gambling websites and apps) across multiple devices. Additionally, family features and apps offered by wireless service providers such as **Verizon Family Plus**, the **AT&T Secure Family® App**, and **T-Mobile's FamilyMode® App**, offer the ability for their customers to block gambling apps and websites in addition to other sensitive content.

Gamban:

Gamban helps those suffering from gambling-related harm to take control of their addiction by blocking access to gambling websites and apps. With our easy-to-use platform, users can track their progress, implement layered protection and receive support and resources to aid their recovery. Gamban provides a valuable service to those struggling with gambling addiction and offers peace of mind to concerned friends and family members. Choose Gamban and take the first step towards breaking free from the cycle of addiction.

We believe the majority of our customers are individuals struggling with gambling who seek a tool to help them take control of their addiction. We also believe that Gamban customers will be motivated to purchase our software due to a desire for support and resources in their recovery journey, as well as a need for accountability towards themselves, friends and family. We expect that our primary customers will be men and women between the ages of 25 and 45, who will most likely discover our software through online search and word-of-mouth referrals.

Since 2015, Gamban has gone from strength to strength, setting the standard in gambling blocking software. Formed from experiences with problem gambling and dissatisfaction with existing self-exclusion options, we brought the most effective and non-intrusive gambling-blocking software to the market.
